MOSQUITA MUERTA WINES

PISPI
RED BLEND

He is always where he isn't invited. When he knows about something, he gives his opinion. When not, he gives it anyway. "Pispi" is somebody who desires attention, hated with passion, but never goes unnoticed.

VARIETIES

40% Malbec, 20% Bonarda, 20% Petit Verdot, 10% Cabernet Franc and 10% Merlot

VINEYARD LOCATIONS

50% del *Valle de Uco* (altura: 1400 m a.s.l.), 50% de *Luján de Cuyo* (altura: 900 m a.s.l.).

HARVEST

Selection of grapes in the vineyard.

Each varietal is harvested at different stages within the same plot, allowing for co-fermentations and obtaining entirely distinct wine profiles in each case: *Merlot* and *Malbec* are sourced from the *Uco Valley; Petit Verdot* and *Bonarda* from *Agrelo;* and finally, *Cabernet Franc* from a cool-climate area in the *Uco Valley*.

VINIFICACIÓN

Co-fermentations of *Malbec* and *Merlot* are carried out in concrete vats with intense extraction to balance structure and enhance aromas. *Petit Verdot* and *Bonarda* are co-fermented with gentle movements in concrete vats to add color and intensity. On the other hand, the *Cabernet Franc* is fermented separately in small stainless steel tanks.

The blend is assembled prior to aging to achieve the best integration of the varietals. 40% of the blend is sent to neutral oak barrels for 8 to 10 months, while the remainder stays in concrete vats.

NOTAS DE CATA

A five-variety wine with an intense aroma of violets and ripe red fruits, as well as a balanced acidity. Its pleasant tannins create a creamy sensation.

It may contain natural sediments.
